

# A Future-looking Organisation

Focused on driving the next level of growth by delivering robust, reliable and efficient end-to-end solutions, Triveni Turbines is the largest manufacturer of industrial steam turbines in >5 to 30 MW range globally.

The Company's product proposition is delivered by its two state-of-the-art manufacturing facilities in Bengaluru, India, while its global network help to serve the requirements of customers worldwide.

**>4,000**

steam turbines installed

**>20**

industries serviced

**70**

countries of presence

**>13GW**

power generation capacity

Triveni Turbines is the world's largest manufacturer of steam turbines (>5 MW to 30 MW range) for providing industrial & renewable power solutions to a growing global base of customers, making it a next-level enterprise that is bringing the future forward with its futuristic vision and strengths.

### What drives Triveni Turbines...

The Company's continuous focus on technological advancement and capturing new markets is driving the business forward. We remain focussed on strengthening our product and solutions pipeline into a formidable array of offerings crafted to fulfil the unique needs of customers, across sectors and geographies.

## Robust portfolio of solutions

We offer robust back pressure and condensing steam turbines up to 30 MW that work across a wide range of pressure and flow applications, with choice of Impulse and Reaction technologies.

### Products

#### Up to 30 MW

- Condensing Steam Turbines
  - Straight Condensing Type
  - Extraction Condensing Type
  - Bleed Condensing Type
  - Injection Condensing Type
  - Reheat Turbines
  - Double Extraction Condensing
- Back Pressure Steam Turbines
  - Straight Back Pressure Type
  - Extraction Back Pressure Type
  - Bleed Back Pressure Type

### Spares & Services

#### 360° Customised Service Portfolio for every turbine served throughout its lifecycle

- AMCs & overhauling for Steam Turbines
- Spare Parts Inventory Management
- Reliable Operations Package
- Highly Skilled Engineers

### Refurbishment

#### Any make, any age turbine

- Efficiency Restoration
- Re-engineering
- Reverse Engineering
- OEM Expertise
- Health Survey & Condition Assessment
- Renovation & Modernisation
- Catering to Process & Sugar Co-generation, Captive Power Generation & Utility

## Wide sectoral presence

Our strong R&D thrust and technological prowess enables us to create products and solutions designed to the specialised needs of diverse industries and applications, globally. The sectoral diversity insulates us from industry-specific risks, with the geographical diversification of the various sectors further minimising the regional risks to our business.

## Global footprint

Led by a strong customer-centric approach, with keen focus on innovative products and aftermarket solutions, Triveni Turbines continues to expand its global footprint for its products as well as aftermarket services, both for its make as well as other makes of turbines.
